### **What's Happening? ...**

April is a "clean it up, pick it up and plant it" month with Earth Day and Arbor Day both on the calendar toward the end of the month. It is a good time to connect with a beach or highway litter cleanup group or volunteer for parks or trail cleanup ... call Crescent School, Clallam County Parks and Trails, Clallam Bay Sekiu Chamber for starters. Or, if you just want to do it on your own, grab a garbage bag, put on some comfortable boots, and pick up anything unsightly and put it in the trash. Let's make the scenic byway and our community as beautiful as possible for all of us who live here as well as our visitors.

### **Strait Ramblings ...**

A quote from the book jacket of "*Untamed Olympics: The Story of a Peninsula*" by Ruby El Hult ... This is a story where "struggle is the theme. Beginning with the age-old and magnificent birth of the region, events move excitingly through the strength-pitting hardships of pioneer days to current issues."

### **The Juan de Fuca Scenic Byway Association Mission ...**

**"To promote the Strait of Juan de Fuca Highway 112 Scenic Byway."**

Promote: To encourage to exist, flourish; to support, foster, nurture, cultivate; to enhance, improve upon; to advocate for; to render a service to; to advertise, publicize.

## **On the Strait and Narrow ...**

**Washington State Patrol ...** WSP, as well as local law enforcement agencies, have received grant money to expand traditional holiday-style emphasis patrols to 52 weeks per year. This means you will see stepped up patrols on random weeks throughout the year. Clallam and Jefferson counties can expect to see extra patrols out for the state's "Drive Hammered. Get Nailed" campaign during the weeks of July 7-13 and August 11-31. Information from: Trooper Krista D. Hedstrom #1114, WSP District 8 Public Information Officer

**Hood Canal Bridge ...** The Washington State Department of Transportation is replacing the east-half of the Hood Canal Bridge and the transition trusses on both ends. Completing this work requires a six-week closure of the bridge in May-June 2009. The end result will be that the Hood Canal Bridge will be wider, safer, and more affordable to maintain. The Hood Canal Bridge staff will have a booth at Joyce Daze, or for more information on the bridge project progress and the Water Shuttle Survey (how to transport people across Hood Canal during the closure) go to the web site at: [www.hoodcanalbridge.com](http://www.hoodcanalbridge.com) .

**SR112 Safety Project ...** Over the next four months, crews will install guardrail, flatten slopes and post new signs to improve safety on SR112. This \$2.6 million project, aimed at reducing the number of run-off-the-road collisions, also improves drainage and installs flashing beacons to alert drivers to a sharp highway curve near Hoko-Ozette road. The work requires setting up traffic-controlled areas within the project limits: US101 on the east and Makah Reservation on the west. Drivers should expect delays. The project is scheduled for completion in early October. "Give 'em a Brake" ... after all, work zones are there because road conditions are being improved. And don't forget, traffic fines double in work zones. Check [www.wsdot.wa.gov/traffic](http://www.wsdot.wa.gov/traffic) for weather, road conditions and projects on state highways and contacts for project comments or concerns.

**Washington State Ferries Reservations ...** WSF currently offers reservations on two routes – Anacortes/Sidney BC and Port Townsend/Keystone. For information on schedules and how to make a reservation, go to: [www.wsdot.wa.gov/ferries](http://www.wsdot.wa.gov/ferries)

**"Good to Go!"** is the electronic tolling program in Washington State giving drivers the ability to pay tolls without stopping at Tacoma Narrows Bridge and for SR167 HOT lanes. For more information, go to: [www.wsdot.wa.gov/goodtogo](http://www.wsdot.wa.gov/goodtogo).

## **What's In Bloom? ... appearing soon in a forest near you!**
